

Objectives for this Workshop

Purpose of bloodstain reconstruction
Discuss and examine Bloodstain patterns
Passive versus force
Surface textures
Angles of degrees
Application of force to create patterns
Documentation of bloodstain patterns
Chemical Enhancement of blood stain patterns

Day #1 Objectives:

History of bloodstain reconstruction and DNA
Documentation of scenes with blood
Lecture: History

Practicum:

Photography, report writing, sketching

Day #2 Objectives:

Bloodstain reconstruction experiments-
Passive and force blood spatter patterns
Effects of Target Surface
Effect of Impact Angle on Bloodstain Shape
Low impact spatter/Medium impact spatter
Transfer Patterns/Cast-Off Patterns
Angles of Degrees

Practicum:

Measuring bloodstains
Creating force patterns
Evaluating passive bloodstain patterns

Day #3 Objectives:

Chemical enhancement of blood present
and absent on crime scenes
Presumptive testing of blood
Human or animal blood testing

Practicum:

Chemical enhancement of blood
Luminol photography
Presumptive blood testing

INTERPRETING BLOODSTAIN PATTERNS

Register Here:

<http://conferences.dce.ufl.edu/forensics/>

Registration fee: \$400
Workshop materials
included.

Bring Employer issued camera and tripod.

Instructor:

Sharon Plotkin, MS

Sharon has a M.S. in Criminal Justice and an International Association for Identification– Crime Scene Investigator Certification. She has 18 years in the industry specializing in crime scene documentation, training, photography, bloodstain reconstruction and finger printing. She has received many law enforcement awards and been published in Investigating CSI.

Bloodstain Analysis Workshop June 14-16, 2017

THE PURPOSE OF THIS THREE DAY WORKSHOP IS TO INTRODUCE BLOODSTAIN PATTERN ANALYSIS, AS WELL AS THE ENHANCEMENT AND DETECTION OF BLOOD ON CRIME SCENES. DOCUMENTING THESE TYPE OF SCENES AND COLLECTION OF BIOLOGICAL EVIDENCE WILL ALSO BE DISCUSSED.

POWER POINT LECTURES AND MANY HANDS ON PRACTICUM'S WILL BE PROVIDED TO ALL THOSE ATTENDING IN ORDER TO ACHIEVE THESE OBJECTIVES.

*ATTENDEES SHOULD BRING ALL THEIR EMPLOYER ISSUED CAMERA EQUIPMENT AND TRIPODS AND WEAR COMFORTABLE BUT APPROPRIATE CLOTHING. BASIC CAMERA KNOWLEDGE IS A PLUS.

FORENSIC PHOTOGRAPHY WORKSHOP

JUNE 12-13, 2017

Registration Fee- \$250
Discounted to \$200 with
Registration to BloodSpatter.

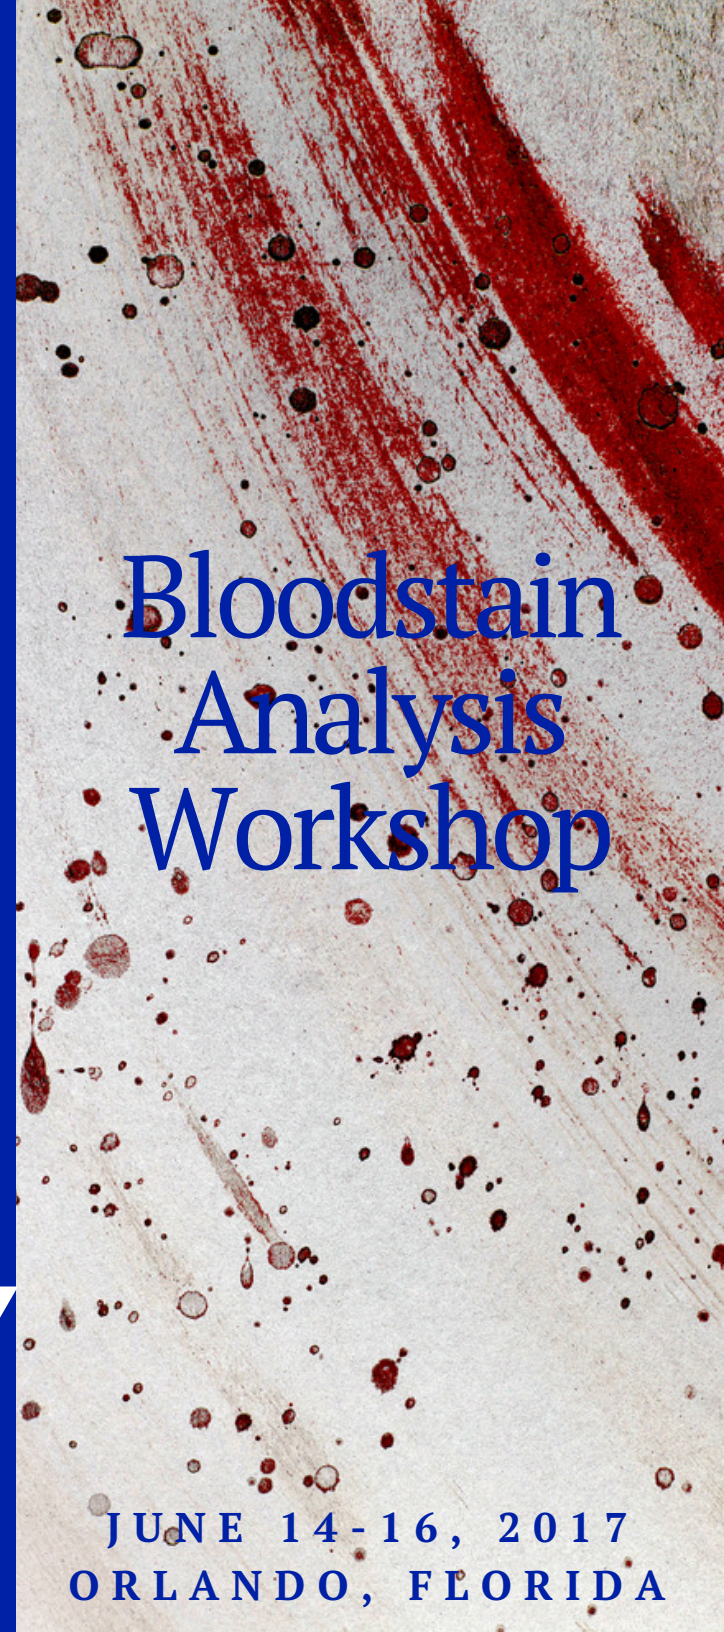

The purpose of this workshop is to introduce the many challenges facing crime scene personnel and law enforcement personnel in documenting crime scenes through photographic techniques and how to overcome these challenges.

Scene photography, alternate light source photography and working in low light situations will be addressed.

Workshops to be held at
Embassy Suites Orlando Airport,
5835 TG Lee Blvd., Orlando, FL 32822
Hotel provides free Airport Shuttle, local
food options in walking distance.
Make Reservations at (407) 888-9339
\$129 room rate, \$12 self parking
Block: Maples Center Workshops
